

MUNEEB HASAN KHAN

FRONTEND SOFTWARE ENGINEER

Noida, Uttar Pradesh, India | +91-9569034040 | muneebkhan9569@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Frontend Software Engineer with 3+ years of experience building production web applications with React.js, Next.js, and TypeScript. Skilled in turning product requirements into reusable, responsive UI systems, integrating REST APIs, and owning features through release. Uses AI-assisted development workflows for component implementation, code review, debugging, test-case generation, and edge-case validation while maintaining hands-on review of code quality and user experience.

SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, Redux, Context API, Chart.js, GSAP

UI & Styling: Tailwind CSS, Material UI, Ant Design, Responsive Design, Cross-Browser Compatibility

APIs: REST APIs, JSON

AI-Assisted Development: Cursor, Codex, ChatGPT - reusable component development, code review, debugging, test-case generation, edge-case analysis, UI validation

Tools & Testing: Git, GitHub, Figma, ESLint, Prettier, Jest, Lighthouse

Process: Agile/Scrum, Sprint Planning, Code Reviews

WORK EXPERIENCE

Frontend Software Engineer | CSS Founder, Noida, UP

June 2024 - Present

- Building Lestow, an AI website builder, **with Next.js, React, TypeScript, and Tailwind CSS**, enabling users to generate websites from business details and customize themes, sections, layouts, and content.
- Developing the **AI website generation and editing flow**, including generated layouts/content, design customization, section editing, and live preview before publishing.
- Using **AI-assisted development workflows** to build reusable components, review implementation quality, generate test scenarios, and validate UI states, edge cases, and failure scenarios before integration.
- Working on **custom-domain publishing** so users can take generated websites live through a complete publish flow.
- Translating project requirements into **clean, reusable frontend features** aligned with functional specifications and design requirements.
- Participating in sprint planning, peer code reviews, and **weekly production releases** within an Agile/Scrum workflow.
- Managing **2-3 concurrent enterprise client projects** while switching between codebases, debugging production issues, and tracking delivery deadlines.
- Coordinating with designers and backend engineers on **REST API contracts, UI states, and edge cases** before implementation.

Frontend UI Developer | Get Web India, Noida, UP

January 2023 - April 2024

- Developed and maintained **responsive, cross-browser web applications** using React.js, JavaScript, HTML5, and CSS3 with a focus on performance and design fidelity.
- Collaborated with designers and backend developers to implement new features, improve interfaces, and follow **code quality and review practices**.
- Worked across **reusable UI component development, state management, and REST API integration** for production web applications.

PROJECTS

Lestow | Next.js | TypeScript | Tailwind CSS

[Link](#)

- AI website builder that converts business details into **editable website layouts and content**, with theme/section customization, responsive preview, and publishing workflows.
- Developed reusable frontend flows for **onboarding, AI editing, live preview, and custom-domain publishing** from generated draft to live website.

User Board | JavaScript (ES6) | CSS

[Link](#)

- Built a **responsive enterprise-style interface** supporting complex interactive workflows and reusable UI patterns.
- Improved frontend performance through **optimized DOM structure and lazy-loaded components**.

Stylam

[Link](#)

- Contributed production frontend features to **Stylam's public website**, implementing responsive interfaces aligned with design requirements and existing application behavior.
- Investigated and resolved **user-facing UI bugs across responsive states** to improve reliability and consistency.

ACHIEVEMENTS

- Awarded **Best Performer of the Month at CSS Founder** for managing multiple high-impact web development projects while consistently meeting delivery timelines without compromising code quality or performance.
