muneebkhan9569@gmail.com ◇ [LinkedIn](#) ◇ [GitHub](#) ◇ [Portfolio](#)

PROFESSIONAL SUMMARY

Frontend Software Engineer with 3+ years of experience building web applications with **React.js**, **Next.js**, and **TypeScript**. Builds responsive interfaces, connects them to REST APIs, and uses AI tools to write, review, and test code.

SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, Redux, Context API, Chart.js, GSAP

UI & Styling: Tailwind CSS, Material UI, Ant Design, Responsive Design

Testing & Quality: Jest, React Testing Library, ESLint, Prettier, Lighthouse

CI/CD & Deployment: GitHub Actions, Vercel, Git, GitHub

Tools & AI: REST APIs, Figma, Cursor, Codex, ChatGPT

WORK EXPERIENCE

Frontend Software Engineer

June 2024 – Present

CSS Founder

Noida, UP

- Building **Lestow**, a website builder where users enter their business details and get generated layouts and content, using **Next.js**, **React**, **TypeScript**, and **Tailwind CSS**.
- Built the **editing flow**: users change themes, sections, layouts, and content, and check a **live preview** before publishing.
- Working on **custom-domain publishing** so users can take their generated website live on their own domain.
- Use **AI tools** to build reusable components, then review the code and write test cases for loading, empty, and error states, edge cases, and failed API calls before it goes into the main codebase.
- Work on **2-3 enterprise client projects** at once, switching between codebases, fixing production bugs, and meeting delivery deadlines.
- Agree on **REST API** contracts and UI states with designers and backend engineers before building; take part in **sprint planning**, **code reviews**, and **weekly production releases**.

Frontend UI Developer

January 2023 – April 2024

Get Web India

Noida, UP

- Built responsive, **cross-browser** web applications with **React.js**, JavaScript, HTML5, and CSS3, with a focus on performance and matching the design.
- Worked on **reusable UI components**, **state management**, and **REST API integration** for production applications, working with designers and backend developers.

PROJECTS

Lestow | Next.js | TypeScript | Tailwind CSS

lestow.com

- Website builder that turns business details into editable layouts and content, with **live preview** and **custom-domain publishing**.

VisitsVisa | Next.js | TypeScript | Tailwind CSS

visitsvisa.com

- Worked on the **frontend** of a visa application platform covering **190+ destinations**, where travellers pick their passport and destination, see the visa type and processing time, and apply online.
- Built **responsive** destination listing and apply pages for **100+ countries**, with filters for eVisa, ETA, and arrival card.

ACHIEVEMENTS

- Best Performer of the Month at CSS Founder for delivering several projects on time.
